Programs Delivered | 77 Program Activities in 2025

Weekly instruction → On-course experience → Continued participation

50

Weekly Golf Lesson Clinics

Golf instruction for children, adults, and Veterans with mobility, sensory, or cognitive impairments. Instruction was adjusted to each participant and included repetition and pacing.

10

9-Hole On-Course Experiences

Ten outings gave participants an opportunity to use skills practiced during clinics while playing on a golf course, with adaptive equipment available when needed.

16

Active Duty Military Clinics

Conducted with Eisenhower Army Medical Center for Active Duty Servicemembers participating in the Functional Recovery Program.

1

Annual Adaptive Golf Tournament

One tournament brought golfers living with disabilities together from across the Central Savannah River Area.

All 77 program activities were offered at no cost to participants.

Participant Perspectives

“I’m not a golfer, but this helps me stay active during my recovery. These clinics are safe, fun, and easy to do.”

- MTTG Participant (2025)

“Marty Turcios Therapeutic Golf has been life changing for me. Marty has a true gift for teaching the golf swing to anyone. He genuinely cares, and the fellowship and enjoyment during sessions makes you want to come back again - to learn, laugh, and support each other.”

*- Rob Strob
U.S. Army Veteran,
MTTG Participant (2025)*

Active Duty Military Clinics

16 Dedicated Military Clinic Days in 2025

110 Active Duty Servicemember visits

MTTG worked with Eisenhower Army Medical Center to provide therapeutic golf clinics for Active Duty Servicemembers participating in the Functional Recovery Program.

EAMC staff coordinated participation and supported participants during sessions. MTTG provided the golf instruction.

Participants practiced movement, balance, and engagement through golf outside the clinical setting.

Participant Statements

“This is going to be my new hobby.”

“I learned more in this one session today than I have in the entire past year.”

- Active Duty Servicemembers

Supporting Organizations

Healthcare, golf, education, and community organizations contributed to MTTG programs in 2025.

Eisenhower
Army Medical Center

Eisenhower Army Medical Center staff coordinated and supported participation by Active Duty Servicemembers in the Functional Recovery Program.

USGA support for adaptive golf helped make grant funding and national opportunities available to organizations and golfers.

MTTG and the Georgia State Golf Association supported adaptive golf activity in Augusta and shared professional expertise.

Wedges & Woods Golf Center provided the range location for MTTG's 2025 community clinics.

Augusta University graduate students participated in MTTG programs as part of their professional education.

The National Alliance for Accessible Golf connected MTTG with education, resources, and a national adaptive golf network.

2026 Program Priorities

1

Mobile and On-Site Clinics

Develop range-based and on-site clinics with rehabilitation centers, assisted living communities, and step-down care facilities for people who cannot yet access community programs.

2

9-Hole On-Course Experiences

Build on the 10 outings conducted in 2025 by offering participants more opportunities to use clinic skills on a golf course.

3

Adaptive Golf Tournament

Plan an expanded tournament for approximately 25 athletes from across the CSRA, offered at no cost to participants.

2025 Program Cost Reference

Direct Delivery

≈ \$100 per clinic

Full Organizational Cost

≈ \$170 per clinic

Planning Basis

5 participants visits

2025 Delivery

77 Activites

Participant Access

No cost

Cost figures reflect 2025 operations. Direct delivery covers clinic expenses; full organizational cost includes the infrastructure required to operate MTTG.
